Sh. Puran Singh Nain

Founder Visionary, Puran Murti Education Hub

1937-2018

A humble beginning in early nineties from an agricultured movement to an educational movement in 2007 called "PURAN MURTI", During the journey of twelve years, he established an Engineering College, a Polytechnic College, a Pharmacy College, a Law College, a Degree College, a College of Education, a College of Nursing, an ITI and a CBSE School.

The Visionary philanthropist changed the identity of the city from an Agriculture Town to an educational hub, making the city better place for education.

His vision for higher education revolved around quality through research and development. The foremost purpose of his life was to give human beings a better life through Education.

The mission continues with Puran Murti Educational Institutions dedicated and committed as always to train and equip its students with latest knowledge and skills in the chosen fields in the backdrops of Indian ethos and values to enable them to face any global challenges with a view to transform them into insideful, honourable and responsible citizens of this great country.

Smt. Murti Devi Nain

Founder Visionary, Puran Murti Education Hub

In association with her husband, Mrs. Murti Nain is a social activist fighting for civil rights and for betterment of rural peoples. She is one of the strongest pillars for her husband to become well-acclaimed social activist.

Mrs. Murti Nain is well known and respected for upgrading the ecology and economy of the village Kami which is located in the Sonipat district of Haryana state.

She faced a lot of hardships and it has become difficult to make both ends meet, as prices of essential commodities are rising constantly due to corruption. She believes that our freedom is at the teeth of danger due to corruption and unless it is eliminated, the country will not be free in its true senses. Therefore, a peaceful war has been waged against corruption with the help of immense support from people. Mrs. Murti Nain has also worked for the social empowerment of women. She believes that women are as talented as men.

We are proud to have such a down to earth person who dreams big and fly high to achieve it.
